Investment Objective

The primary objective of the Fund is to provide long-term total returns through interest income and capital appreciation. The Fund will primarily invest in government debt, but may also invest in other debt instruments across the credit spectrum.

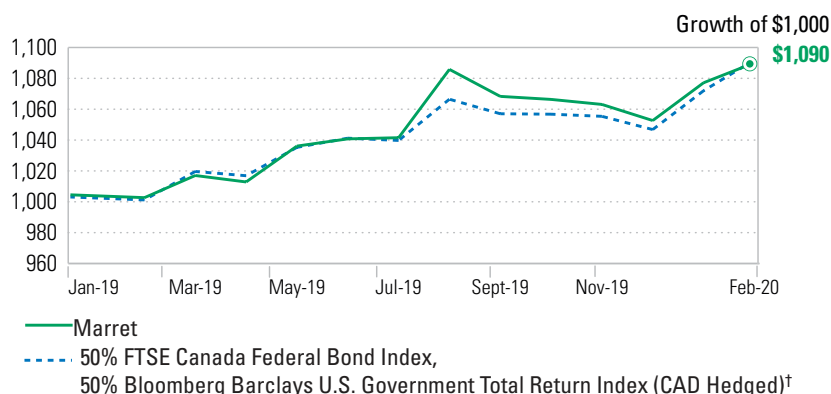

Investment Strategy

The Fund shall consist primarily of government debt, but may also hold other debt instruments across the credit spectrum including cash, investment-grade corporate debt, high-yield corporate debt, government debt futures, convertible debentures and credit derivatives. The Manager has full flexibility with regards to duration positioning and will seek to provide optimal exposure through changing market conditions.

Why Invest

- Experienced Portfolio management team, co-led by Paul Sandhu and Adam Tuer, with over 40 years of combined experience.
- Actively managed duration across the economic cycle.
- Flexible government bond-focused solution.
- Ability to hedge, including interest rate risk using actively managed credit indices.

Investors should consult their own professional advisor for specific investment advice tailored to their needs and based on the latest available information.

The portfolio performance provided is for illustrative purposes only and is intended to show the growth of a \$1,000 investment and assumes reinvestment of dividends and capital gains. Fund expenses, including management and performance fees and other expenses, were deducted.

The offering of units of the Fund is made pursuant to its Offering Memorandum only to those investors who meet certain eligibility and minimum purchase requirements. Management and performance fees and expenses, including commissions and trailing commissions all may be associated with investment funds. Eligible investors should read the Fund's Offering Memorandum before investing. Investment funds are not guaranteed, their values change frequently and past performance may not be repeated. The annual compound total returns are presented in Canadian dollars, net of transaction costs, assuming the reinvestment of dividends, interest, and other earnings. The fees and expenses are higher for Class A than for Class F. The management fee and administration fee associated with Class A is 1.00% and 0.30% (administration fee is only an estimate) respectively, whereas the management fee and administration fee associated with Class F is 0.60% and 0.30% (administration fee is only an estimate) respectively.

[†]The Fund consists primarily of U.S. and Canadian government debt and may also hold other

debt instruments across the credit spectrum, which makes the FTSE Canada Federal Bond Index and the Bloomberg Barclays U.S. Government Total Return Index suitable indices to compare against. Provided that the fund's mandate enables flexibility on geographies, strategies, and securities, we selected these indices as the most representative amongst those available.

The comparison presented is intended to illustrate the Fund's historical performance as compared with the historical performance of the FTSE Canada Federal Bond Index and the Bloomberg Barclays U.S. Government Total Return Index. There are various important differences that may exist between the Fund and the stated indices that may affect the performance of each. The objectives and strategies of the Fund result in holdings that do not necessarily reflect the constituents of and their weights within the comparable indices. Indices are unmanaged, and their returns do not include any sales charges or fees. It is not possible to invest directly in market indices.
